

Signs of Safety® Regional Network Workshops

The quarterly regional network workshops are designed to bring together, on a regional basis, local authorities from across England who are implementing Signs of Safety as a whole-system approach.

Each workshop will be supported by licensed UK Signs of Safety Trainers and Consultants.

The programme for the workshops will be informed by participating local authorities, other relevant agencies and the UK Signs of Safety consultants with a view to:

- Supporting the whole-system implementation of Signs of Safety
- Keeping up to date with developments in the practice and implementation
- Sharing information and experience in practice and implementation.

Venues are shared between local authorities and agencies and will be advised closer to the dates.
